

Web Design Major: Advising Considerations for Georgetown College

Introduction

This is NOT an interdisciplinary major, so the student is required to complete another major or a minor.

For detailed information about RIZE courses that are required for the major, consult the following web page:

<https://wandering-confidence-1a0.notion.site/Web-Design-9b16c0f2c7b84a91ad06b891e2226189>

We provide here some possible completion plans. There are two plans, one for entrance in an even Fall semester, another for entrance in an odd Fall semester.

Certain considerations that influenced the design of these sequences should be borne in mind when one designs any completion plan:

- It is helpful, but not at all necessary, to take CSC 324 before CSCR 300, as CSC 324 provides an introduction to the JavaScript programming language.
- CSC 324 is offered in odd Falls only.
- As with any major, one should take courses at one's earliest opportunity as much as possible. It is dangerous to delay courses under the assumption that they will be available later on.

Two important notes before we go to the plans:

- You should not follow them blindly. **You should draw up your own plan!** When you make your own plan, carefully check the College Catalog to verify the prerequisites and the schedule of offering of the courses. Offering schedules are given below in parentheses after each course, but that information can easily get out of date.
- RIZE sometimes changes its program requirements, and it can up to a year for the College Catalog to catch up. For example, as of now CSCR 100 will no longer be taught, and its place in the curriculum will be taken by a new course, CSCR 105, available starting Fall 2026. The completion plans below mention CSCR 105, but if you have already taken CSCR 100 then don't worry: that course still count toward your major, and you will not have to take CSCR 105 in addition.

Typical Sequences

If you start in an even Fall semester, you can finish in 2.5 years:

- Year 1, Fall
 - CSC 115 (F/S)
 - ART 121 (F/S)
- Year 1, Spring
 - COMM 115 (F/S)
 - CSC 215 (S)
 - CSCR 105 (F/S)
- Year 2, Fall
 - ART 321 (F/S)
 - CSC 324 (odd F only)
 - WDMR 200 (F/S)
- Year 2, Spring
 - WDMR 300 (S)
 - MAT 111 (F/S)
 - CSCR 300 (F/S)
- Year 3, Fall
 - WDMR 450 (F)

If you start in an odd Fall semester, you can still finish in three years, but you would have to take CSCR 300 before or along with CSC 324:

- Year 1, Fall
 - CSC 115 (F/S)
 - ART 121 (F/S)
- Year 1, Spring
 - COMM 115 (F/S)
 - CSCR 105 (F/S)
- Year 2, Fall
 - ART 321 (F/S)
 - CSC 215 (S)
 - WDMR 200 (F/S)
- Year 2, Spring
 - WDMR 300 (S)
 - MAT 111 (F/S)
 - CSCR 300 (F/S)
- Year 3, Fall
 - CSC 324 (odd F only)
 - WDMR 450 (F)
